

Here are just a few of the many uses for an Mtech 2. Also available in type 304 stainless steel

The Mtech is perfect as a secure and mobile office in an industrial or warehouse setting. Put it where you need it, then lock up and recharge your laptop.

The Mtech can be a perfect addition to any office.

Keep computer equipment and peripherals close within reach.

Shelves can be used as sit-down or stand-up workspace. Shelves can be "locked" in the out position.

The sturdy shelves measure 24" wide and 22" deep.

The Mtech 2 features a rear cable access port. Door locks incrementally for security. The Mtech 1 comes with 2 cable access ports.

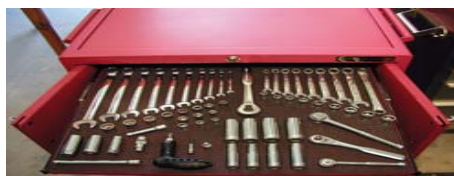

This drawer securely stores a massive amount of office supplies.

This drawer fits music and software CD's perfectly on edge so that titles can be read. Fits close to 200 music CD's.

This closeup shows the construction of these sturdy drawers.

Strong shelves hold a huge assortment of wrenches and sockets. Non-slip liners keep them in place.

Keeps your tools laid out and accessible when needed.

Closely spaced shelves are an excellent way to store flat tools. Shelves are adjustable and easily removed.

The MTech 2 ships with two shelves but accommodates up to 5. Additional shelves can be purchased with slides attached, and each shelf comes with a pre-cut non slip liner.

Some of our customers plan to use these secure units to display merchandise in retail stores.

The cabinet doors and drawers can be opened or locked independently to provide controlled access for workers or family members.

**The MTech Components can be stacked in any combination of two or used independently. These industrial quality units are indispensable wherever space and versatility are at a premium. Both stainless steel and powder coated models have the same innovative features**

**Patent Pending**

**We proudly warrant all SteelHead™ products for 6 years**
